### Paying for Experience

A severe "belly ache" is the price paid for the fun of eating green apples. Mamma told them not to do it, but it took actual experience to convince them.

We say the same thing about green lumber. It may look right, but after it is in the job a while, it will warp out of shape, and a bunch of trouble is what the experience will cost you. If you want to be sure of getting good, thoroughly seasoned lumber, don't take any chances, but come to us for it. It will cost you no more than the other kind will elsewhere.

Try the Money-Back Cure for indigestion.

Nine times in ten stomach derangements are responsible for sallow complexion, dull eyes and thin body.

It is the stomach that supplies nourishing blood to the muscles, the nerves and skin. If the stomach is healthy, plenty of nutritious matter will be absorbed by the blood. If it is not healthy, the food will ferment, and undigested, will pass along through the bowels, furnishing so little nutritious matter that the blood becomes impoverished, and the glow of health vanishes.

If you suffer from nervousness, sick headache, belching of gas, sour taste in the mouth, heaviness after eating, or any other miserable stomach disturbance, you need Mi-o-na and the sooner you get it the quicker you will be healthier and happier.

It will relieve any distressed stomach condition almost immediately. It will cure if used according to directions. The Palace Drug Store sells it at 50c a large box, and thinks enough of it to guarantee it to cure indigestion.

"Swat the Fly"

We request a careful reading of the following rules issued by the Merchants Association of New York, under the caption, "The House Fly at the Bar."

"Keep the flies away from the sick especially those ill with contagious diseases. Kill every fly that strays into the sick room, his body is covered with disease germs.

Do not allow decaying material of any sort to accumulate on or near your premises.

All refuse which tends in any way to fermentation, such as bedding straw, paper waste and vegetable matter should be burned.

Screen all food.

Keep all receptacles for garbage carefully covered and the cans cleaned or sprinkled with oil or lime.

Keep all stable manure in vault or pit, screened or sprinkled with lime, oil or other cheap preparation.

See that your sewage system is in good order; that it does not leak, is up to date and not exposed to flies.

Pour kerosene into the drains.

Cover food after a meal; burn all table refuse.

Screen all food exposed for sale.

Screen all windows and doors, especially the kitchen and dining room.

Don't forget if you see flies their breeding place is nearby filth. It may be behind the door, under the table or in the cuspidor.

If there is no dirt and filth there will be no flies."

If there is a nuisance in your neighborhood, notify the health officer.

DR. H. WHITWORTH.

## The Weather

For the Last Few Days Could Hardly Be Classed as Summer Weather, But By Referring to the Calendar You Will Note That Summer Is Not Far Distant.

With the arrival of summer weather comes the necessity of the use of Refrigerators. None but the best is good enough for the American Home.

We handle the "Alaska" ka." The ice man don't like them because they use less ice than any other make. For this reason, if no other, the "Alaska" should be in every home; but there are other reasons: perfect refrigeration, perfect circulation of cold, dry air, and perfect sanitation. No moisture from the melting ice outside of ice chamber. They are lined throughout with white enamel, making them easy to clean. In short, they are the only perfect Refrigerator. Come in and let us "show you."
